Explications: This simple list includes Latin and English names according to Clements et al. It also includes data on status in the country [confirmed = x; non-breeding visitor = nb; endemic = (e); hypothetical/unconfirmed = h; introduced = in]; status in continental Ecuador and Galapagos separately; altitudinal range (plus extralimital elevational records), and subspecies recorded in the country. Additionally, we include a list of Spanish names adapted by CERO from the first version made by Paul J. Greenfield, Fernando Ortiz-Crespo and Juan C. Matheus (1990).

Esta lista simple incluye los nombres científicos y en inglés según Clements et al. También incluye el estatus de cada especie en el país [confirmado = x; visitante no reproductivo = nb; endémico = (e); hipotético/no documentado = h; introducido = in]; el estatus en Ecuador continental y Galápagos se muestra por separado. Además, incluye rango altitudinal (con registros altitudinales extra-límite) y subspecies registradas en el país. Se incluye la lista de nombres en español, adaptada por CERO a partir de la versión original creada por Paul J. Greenfield, Fernando Ortiz-Crespo y Juan C. Matheus (1990).
